

Summer School 2010

Summer School at Magic Years is a wonderful experience for everyone involved. It maintains an opportunity for your children to continue being part of a community atmosphere as well as exploring a range of “international-minded” engagements that supports individual interests and development.

It is also an opportunity for newcomers to Bangkok to meet other children at school during the more quiet days of summer and get familiar with the school culture and routines before the regular term starts in August 2010.

All sessions will include fun, exciting, relevant and stimulating activities, reinforcing a meaningful and natural interest in the following areas: the Arts (drama, music, visual arts), Physical Education (gym, swimming, games and sports) and Integrated Program (language, construction, discovery, sensory integration).

The Summer School program will be divided into a total of four 2-week sessions with mixed aged groups. Families may choose which session(s) they would like to attend. Three day and five day a week programs are offered for children ages 1.6 years to over 6 years. Registration is also open to non-Magic Years children. Free transportation is available to and from Magic Years. **Summer school session fees will be discounted if paid before May 24, 2010.**

Fees

Session	Period
I	June 7 – 18, 2010
