Dear MYIS Community

We would like to apologise as we have misunderstood the communication from the Ministry of Health last night.

Please note that:

France, Germany, Japan and Singapore have been removed from the list effective from yesterday (the date of the directive sent). This means that families who returned or had contact with these countries from the 5th of March are able to return to school without being subjected to 14 days self-quarantine.

However, for those students who have been to those countries prior to the 4th of March and are currently in self-quarantine, should complete their 14-day self-quarantine period.

We continue to be grateful to you for your understanding as we navigate this challenging situation and apologise again, for any misunderstanding and confusion.

Have a safe and healthy weekend and please let me know if you have any questions. We will continue to share any new information we receive.

Kind Regards

Khanum
